WHITE MARSH, MARYLAND

1910 GREETINGS

CATALOGUE OF GERANIUMS

Issued by

R. VINCENT, JR. & SONS CO., WHITE MARSH, MARYLAND

To Our Friends, Patrons and the Trade in General:

IN presenting this, our sixth annual Geranium Catalogue, we desire to thank our many friends and patrons for the support and encouragement that have been given us during the past season. We trust we may continue to merit their fullest confidence and assure them that we shall do all in our power to make every transaction satisfactory in every way.

That the Geraniums are more popular to-day than ever is an indisputable conclusion, and this is not to be wondered at when we consider the recent introductions, embracing as they do a variety of choice specimens which cannot fail to give satisfaction to the most fastidious. Words are inadequate to fittingly describe the magnificent varieties, comprising all imaginable colors, shades and variegations from the most dazzling to the softest and most delicate tint.

We believe in Geraniums and again found it necessary to greatly increase our growing facilities to an extent which we believe will, with favorable conditions, enable us to produce two million Geraniums during the season of 1910.

Novelties

Our list of Novelties will be found to contain the best of the 1909 introductions by the foremost representative growers in the world, and is one of the best collections ever gotten together in this country. Among them are some of the finest we have ever seen and are grand achievements toward perfection. The flowers are extra large, of perfect form, splendid substance and the most exquisite beauty, embracing a range of diversified coloring with combinations of markings almost endless and undreamed of; in fact, it is hard to realize the great advancement that has been made in Geraniums during the past season.

While we have not had the opportunity to test all these, we offer them backed by the reputation of the introducers, who are all men of large experience and well known to the trade the world over, and we are confident that they will meet every requirement. As far as possible we have used the introducers' descriptions.

Newer Varieties of Special Merit

Under this heading we have classed all those varieties of pre-eminent merit which, having passed through the Novelty stage, are more or less known to the trade; they all possess distinctness of character enough to warrant us in recommending them to more thorough trial, confident that in them will be found all the prime qualities of the best and cannot be excelled. They are already becoming very popular and promise to change the standard to one that will be more beautiful in color, larger in size, more perfect in form, more abundant in flower, stronger in constitution, which will prove adaptable to our climate. In fact, the Geranium of the future will exceed even the dreams of the past.

Standard Varieties

We have no hesitation in claiming that our collection of standard varieties will compare very favorably with the best in the country, as far as distinct, useful varieties go. In keeping our collection up to the highest standards we are continually adding many of the newer introductions and throwing out some of the old sorts, always aiming to include only those of special merit in the different classes, avoiding as far as possible those varieties that are so much alike as to cause confusion or contention as to their identification. We are satisfied that every variety is capable of producing most satisfactory results, and measuring up to the highest type of standard Geraniums.

The Illustrations

are not intended to portray in any manner the size of the flower or truss, but to give an idea of the general appearance. We have tried to make the descriptions as true as it is possible to get them, very few doing full justice to the variety they represent. The colors of all the Geraniums, except the Novelties, have been tried by Dauthenay's French Color Guide.

Important to Purchasers

Please Read Carefully Before Ordering

We aim to get new customers and to keep old ones, and by honorable dealings to satisfy both customers and ourselves.

This list cancels all previous quotations. All offers are made subject to goods being unsold. Prices quoted are for plants from 2-in pots. Single rates quoted are for less than five of a kind. Dozen rates are for more than five and less than 25 of a kind. Hundred rates are for more than 25 of a kind. Special prices are made for large lots.

No charges are made for boxes or packing, nor for delivery to express or freight office on orders of \$1.00 and over; on orders of less than \$1.00, 15c. must be added to pay for packing.

As heretofore, all sales and quotations are made on a strictly cash basis, regardless of the responsibility of the customers. We make low prices, guarantee full count and render the best possible service in every way.

C. O. D. orders must be accompanied by one-half of the amount of order.

All claims must be made immediately on receipt of goods; later claims will not be considered. When loss occurs through our fault we will take pleasure in correcting it, but we cannot be held responsible for damage occurring in transit.

We cannot hold plants on inquiry, without a guarantee of acceptance.

Orders for growing crops accepted subject to crop failure, shortage or other causes beyond our control.

We prefer to ship all plants by express; they then travel at special rate—20 per cent. lower than the regular merchandise. It is not necessary that charges should be prepaid to secure this rate. We have the Adams and United States Expresses.

We take all possible means to keep every variety separate and true to name.

To all who are interested in horticulture we extend an invitation to visit our establishment at any time, and to inspect our stock, feeling confident that they will find it up to the highest standard of perfection that is possible to attain.

We are located 12 miles north of Baltimore; get off at Cowenton on the Philadelphia Division of the B. & O. R. R., or at Chase on the P. B. & W. of the Pennsylvania system. Send us word of your coming and we will meet you at either station.

R. VINCENT, JR. & SONS CO.

WHITE MARSH, MD.

Bruant's 1909 Novelties

The Zonal Pelargoniums or Geraniums originating at Bruant's establishment are universally known, have been exhibited at thousands of expositions, and have brought to the exhibitor very high praise and rewards. At the Paris Exposition in May the superior variety "Dagata," exhibited alone, was awarded a Grand Silver Medal by the Commissioners, and by the National Horticultural Society of France a Diploma of Merit. We may also mention the following well-known standard varieties of the Bruant race, which yet stand in the first rank among Geraniums as evidence of the quality of their type: Beaute Poitevine, Jean Viaud, Nuit Poitevine, Alphonse Ricard, etc.

This year's Novelties have been selected with the greatest care and will be found to contain the choicest assortment ever placed in commerce. We would call especial attention to their sterling qualities, healthy constitution and easy cultivation; even amateurs as well as experienced gardeners can grow them without difficulty.

Single Varieties

Belcolor. Plant of good habit, flowering abundantly; grand trusses; large red crimson flowers. A variety remarkable for its richness in color.

Jules Marsan. Compact habit; plant of medium height; numerous trusses; flowers of grand size, salmon color, white eye, with a red apricot halo. Plants grow well in open air.

Jane Vieu. Good trusses; flowers of a beautiful rose vermilion color, reticulated white. Beautiful distinct variety, flowering abundantly.

Rose Aimee. Robust habit; enormous trusses, held well above the foliage by long flower stalks; color pure brilliant rose. Grows well in the open air; good show variety.

Albera. Strong trusses held well above the foliage, by long, solid stems; big flowers; fine malt white. Robust and stands all temperatures.

Subliminal. Good round flowers; center rose salmon, with a bright light like the sun shading from the center, white eye; plant robust. An extraordinary plant among the white center varieties; can stand all temperatures.

Interne Bazy. Plant robust; compact habit; good trusses; remarkable shade of anilin violet; very shiny; the upper petals have a darker border.

Frivola. Large trusses, grand flowers of a delicate rose lilac, upper petals shading to white at center; good bloomer. Excellent plant for assortment.

Antithese. Plant robust; floriferous; large round flowers; vermilion scarlet, with one large white spot on upper petals; great contrast of colors.

Double Varieties

Leon Rictor. Plant of good habit and flowering abundantly; large, semi-double flowers, very open; fine shade of bright carmine, shading to brilliant rose; center white.

Bohemos. Plant robust; compact habit; free flowering; fine trusses; semi-double flowers; elegant form; rich violet with velvety and fiery spots mixed.

Rosafera. Compact habit; grand upright trusses; very good foliage; flowers semi-double; petals elegantly curled; fine rose, slightly shaded salmon; fresh and pretty color; good and free bloomer. Fine for bedding.

Habert Dys. Robust habit and compact grower; good trusses; long flower-stalks; grand flowers; round, perfect, semi-double; red madder, with a border of mixed dark violet.

Fraisidis. Plant of good habit, flowering abundantly; semi-double; very open; brilliant rose strawberry mixed and maculated clear violet. Distinct variety.

Madame Dux. Strong trusses; large, round flowers; semi-double; elegant form; delicious color of apricot salmon, center dark, shading to the margin like white rose. Variety of good merit; prettiest one of the sex in this color; constant bloomer. Good for grouping in beds in the open air.

Scevola. Large umbels; long flower-stalks; semi-double flowers; clear rose, powdered rose carmine. Beautiful variety.

Jean Volane. Robust grower; enormous trusses; large flowers; violet and purple, bordered and spotted similar to a nasturtium.

Claironnant. Plant of specially good habit, flowering abundantly; a little double; very open; grand umbels, being detached from the foliage; large copper-red flowers.

Lya Berger. Good habit; robust; free-flowering; large semi-double flowers; very open; a pretty shade of china rose.

Cyclops

Mr. Bruant says: "This set represents a continuance toward perfection in this race of Geraniums with a giant white eye Cyclops, first raised in our (Bruant) establishment. Our efforts have been to improve the growth, the habit, the greatness and beauty of the flowers, having a large and pure white center in distinct circle."

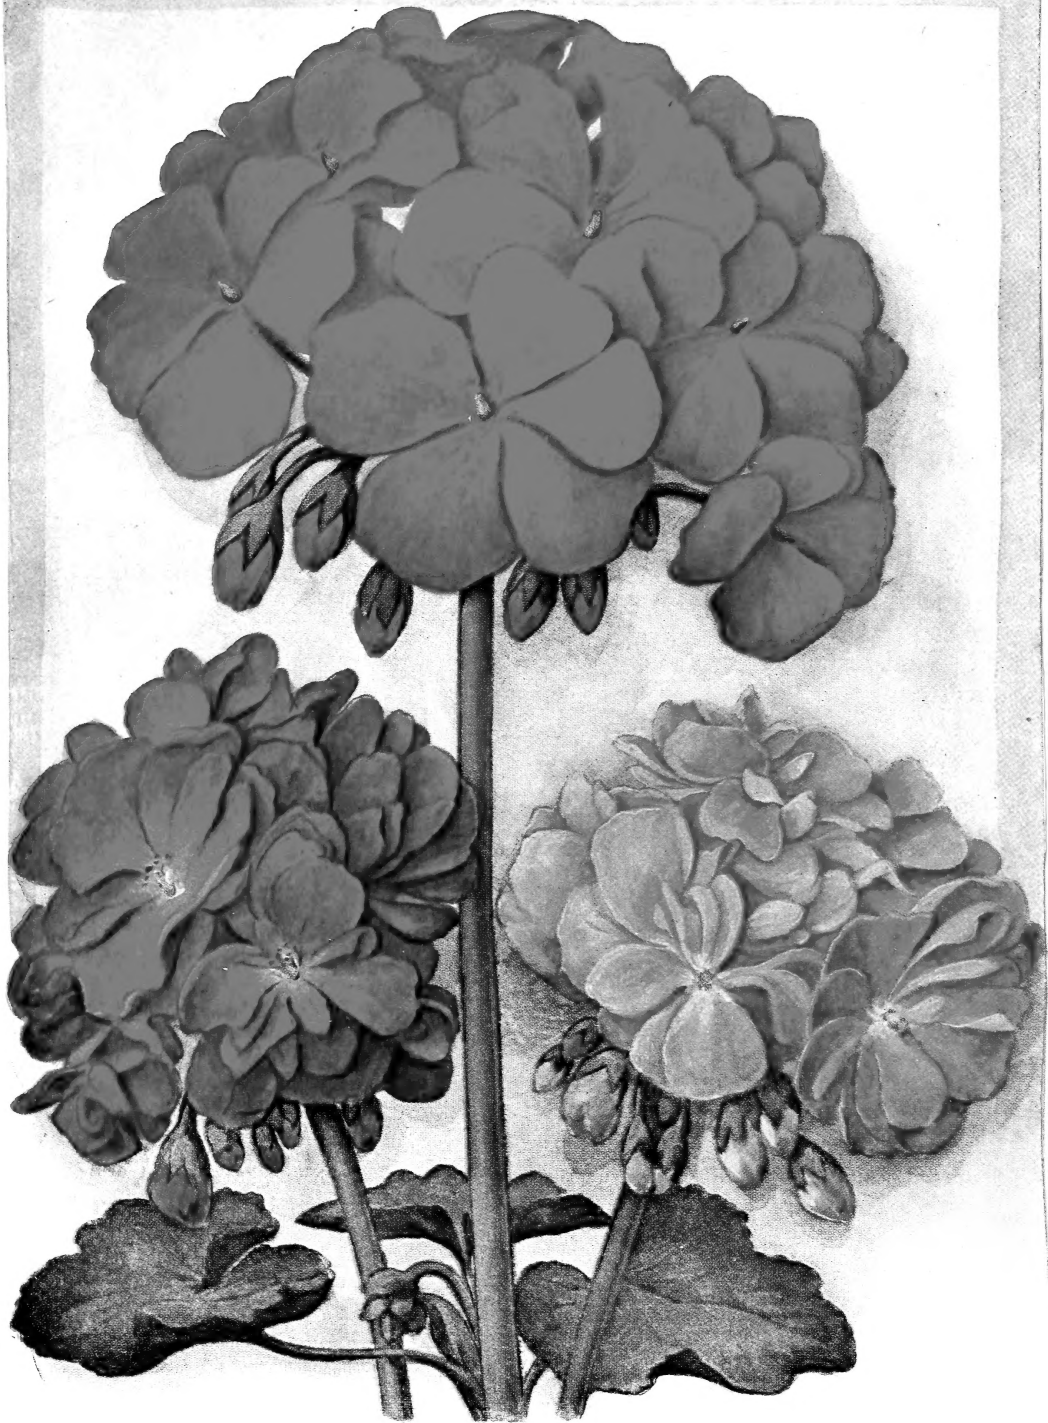

Single

Maurice Thomas. Plant of good habit; good trusses; large flowers; rich vermilion; grand white center, veined lilac. Beautiful novelty.

Jean Bologne. Plant floriferous; compact habit; large, round flowers; dark red, grand white center. Beautiful effect.

Germain. Good habit; strong umbels, flowers first-class; grand rose-carmine color; very large white center. One of the best in this class.

Sereno. Good habit; strong umbels; flowers cerise carmine, center white. Best of the known class.

Bruant's 1909 Novelties—Cyclops—Continued

Semi-Double

Regiane. Plant dwarf; strong umbels; large flowers; rose cherry cerise, white center. Good and pretty variety.

Doct. G. Chanteaud. Plant compact; large trusses; flowers elegant, little double, very open; rose garnet, with red margin on end of petals, with large white center. The large white center makes it the best of the double Cyclops.

Carjan. Plant low and good foliage; trusses medium size but numerous, flowers large, flat, very open, little double; very dark red, big white center, forming fine contrast of colors.

Ernest Reyer. Very large flowers; semi-double, very open; light red, with a large white center; very striking; plant low, but good foliage.

Three Heavy Wooded, Large Flowers of the Bruant Race

The Novelties we offer in this class this season are most admirable not only for the beauty and greatness of the flowers, but also for their very strong and heavy growth and uninterrupted flowering qualities. They are of unusual value for decorating the garden in Summer.

Roseina. Plant low; branching flowers the whole season; plenty of umbels; large flowers; fine rose, the two upper petals white spotted. Very good variety.

Pierre Vierge. Free flowering; plant low; easy grower; thick foliage; flowers round, center gold, with a white border, white eye; fresh coloring. Good variety.

Verger Fleuri. Good habit; robust and good; foliage very large; pure white flowers; very lasting. Best of the white varieties.

One Single Variety

Le Poitou. The newest and prettiest variety, with a rare color; bluish violet; good umbels; lower petals brilliant violet, bordered red; upper petals red and violet, abundantly spotted fiery red. Intense and distinct in coloring.

Ten Varieties of the Bruant Race With Very Large Semi-Double Flowers

Virgile Rossel. Plant dwarf, very like Comtesse de Chantemesle; flower very large, semi-double; center tender, golden white, bordered delicate color. Very good for culture under glass.

Hourlier Lenglet. Plant robust; good foliage; umbels enormous; large flowers; vermilion red; very bright. Good for bedding, center or border; also for decoration.

Alphonse Dachy. New variety, very much like Dagata; good and strong grower; large umbels, and very open; semi-double; largest of all new varieties. The color is a very dark rose, with one large white spot on each of the upper petals.

Pierre Courtois. Remarkably abundant flowerer; very rich foliage, with large, elegant and open semi-double flowers, on 6-8 petals; velvety red purple, spotted light violet—a rare color among Geraniums.

Misie Schmerber. Compact habit, thick foliage, large trusses; flowers semi-double, large petals, very full; color light and fresh rose; the upper petals are spotted white. A good plant for grouping in the open air.

Mme. Bellaud Dessalles. Plant very dwarf; foliage is good, small and thick; very good trusses; large flowers, semi-double, rich carmine violet, the two upper petals spotted white.

Blancaflour. Plant low; compact; blooming all the year; fine semi-double flowers, pure white. The flowers and trusses are large and make it a fine plant for grouping.

Jeunesse Poitevine. Plant robust and easy growing; foliage middle size, with indented edge; good trusses, held well above the foliage; large flowers; a fine semi-double; color fiery salmon, a shade lighter and brighter than Beaute Poitevine. One of the best plants for ornamental use.

Julie Borius. Plant low and bushy; trusses plentiful, well above the foliage; large, open flowers; a fine semi-double; new and fine color, a shade hard to describe—a sun golden rose magenta.

Translucide. A splendid, robust grower; good foliage; flowerstalks long and rigid; large trusses; very large, semi-double flowers; color a fine silvery rose, the two upper petals spotted white; good and transparent color.

Konigin Olga Wurtemberg

Deep rose, pure white at the base of upper petals; dwarf, compact grower; extremely free flowering, every joint producing a bloom. An old favorite of the Germans, that promises to do remarkably well here; splendid as a pot plant. *See page 27.*

Frau Bertha Schaffer

A strong, robust grower and free flowering; large trusses. *See page 27.*

Admiral Jones

(Lem. 1906) Splendid deep strawberry red. Excellent grower and fine habit. *See page 23.*

Rozain-Boucharlat's 1909 Novelties

Those of our customers who have had the Rozain-Boucharlat set of Novelties the past few years will appreciate the fact that we are able to offer a set this season which will be found up to the high standard of perfection for which this type is noted. We are confident that many of them are destined to rank along the best standards.

Single Varieties

Louise Rozain. Grand round trusses; good shape; magnificent white rose color, halo over weever. Extra novelty.

Docteur Carrel. Round florets; large petals; grand flowers of a clear peach, veined halo of salmon rose, white eye. Extra.

Colonel Alix. Grand flowers; round petals; rose salmon, bordered peach.

Jean Richepin. Grand, beautifully formed flowers; rose color, white eye.

Cardinal Mathieu. Grand red flowers, scarlet edging.

Maurice Farman. Round flowers; strawberry red, shading to purple.

Commandant Renard. Grand flowers, shading through clear red to bright rose.

Sentinelle. Very grand round flowers; red vermillion; upper petals spotted white; plant dwarf. Extra.

Stephen Pichon. Velvety crimson purple, shading to scarlet carmine, white eye; feathered fire.

Chanoine Goube. Grand flowers of perfect form; clear purple, shaded carmine purple, white eye.

Peintre Gratia. Very grand rose, carmine flowers; plant vigorous and floriferous.

Wilbur Wright. Large round flowers; pure white, with a purple stripe.

Lieutenant Vary. Grand flowers; large purplish fiery reflex, white eye; plant dwarf; very floriferous.

Double Varieties

Juliette Adam. Extra double flowers; rose carmine, with a white stripe.

C. Bessonnet. Beautiful semi-double flowers, perfect form, with a mauve center, petals bordered mauve carmine.

Ernest Judet. Double flowers; grand red.

Vigie. Very grand flowers with large petals; clear cochineal red, center white, surrounded by purple.

Victorien Sardou. Flowers semi-double; clear transparent crimson, shaded fuchsia purple, center aurora.

Camille Dejoud. Semi-double; fuchsia red, center nasturtium color.

Jules Cambon. Double flowers; dark currant red, shaded violet.

Santos Dumont. Grand double flowers; pure white. An extra beauty.

Commandant Fesch. Truss grand; flowers perfect; carmine purple, center clear nasturtium.

Francois Coppee. Semi-double flowers; novel color, purple with Tyrian red of a silkish appearance.

Berthe de Presilly

(Brt. 1887) One of the best bedding light pinks we have, and is a fit companion to the old favorite and standby, S. A. Nutt. See page 23.

Madame Laporte-Bisquit

(Brt. 1906) A very strong, robust, semi-dwarf and compact grower. A variety which we are confident will win a place in popular favor. See page 24.

V. Lemoine's 1909 Novelties

Again we are pleased to offer to our customers a grand set of Novelties introduced by Mr. V. Lemoine, Nancy, France, and are convinced that they will be found as satisfactory as those of his former introduction we have sent out. Some of the best of our standard varieties have originated under the care of Mr. Lemoine.

Single Varieties

Algernon Swinburne. Plant dwarf and very floriferous; large, round flowers, orange scarlet color.

Arvede Barine. Grand trusses of enormous flowers, milk white color.

Cardinal Mathieu. Upright trusses, good dimensions; grand round flowers; bright salmon, pale rose on upper petals.

Gaston Boissier. Very dwarf, small leaves; upright grower; enormous trusses; round flowers; dark carmine, upper petals spotted red.

Emile Hinzelin. Enormous upright trusses; flowers fiery red, shaded black to the center.

Georges Beaume. Round, perfect flowers; light rose color, with white veins on the upper petals.

Jacques Jasmin. Extra large trusses; large flowers, and perfectly formed; flesh color, with pink shading.

Pierre Louys. Large trusses; grand flowers; clear rich aurora salmon color.

Victorien Sardou. Very large trusses; grand flowers; blood red scarlet.

Double Varieties

Abel Faivre. Grand umbels; large semi-double flowers; white with carnation red around the edges.

Albert Guillaume. Large flowers of perfect form; semi-double; tender rose mauve, shading to a white center.

Benjamin Rabier. Grand, large semi-double flowers; large trusses; rose mauve with carmine shading.

Ernest Hebert. Very woody; enormous flowers; semi-double; rose white with a salmon veined center.

Jean Veber. High upright trusses; very large flowers; long flowerstalk, always full of flowers; bright scarlet.

Mme. Favart. Good, upright trusses; perfect flowers; alabaster white.

Lemoine's 1908 Novelties

Single Varieties

Anna Judic. Grand trusses; long stems; white, tinted pink.

Dr. Bertillon. Trusses erect, full and round; large flowers; salmon striped and blotched rose white.

Dr. Laveran. Perfect trusses; grand flowers; fiery red orange, stained white on upper petals.

Emile Boutmy. Enormous trusses; raspberry red, upper petals fuchsia red, superior maculated white at the base of upper petals.

Henry Moissan. Trusses held vertically on long stems; flowers grand; very brilliant clear vermilion garnet, center white.

Louis Renault. Semi-dwarf; robust, vigorous grower; excellent for bedding; enormous round trusses; the flowers are perfect; clear orange scarlet.

Marcellin Berthelot. Semi-dwarf, robust grower; immense trusses; grand flowers; brilliant scarlet.

Double Varieties

Albin Valabregue. Semi-dwarf; robust grower; very large flowers; lilac rose, upper petals maculated white.

Emile Moselly. Dwarf; robust grower; very floriferous; short foliage; large flowers, semi-double; madder red, resembling Reformatory, only double.

Eugene Carriere. Semi-dwarf; robust habit; fine, grand trusses; enormous semi-double flowers, with large petals; rose coppery salmon.

Henri Cain. Large trusses; clear currant red, center rose white.

Loredan Larchey. Large, strong trusses; flowers semi-double, imbricated white, edges distinct rose.

Rachel. Trusses enormous; large, semi-double flowers; white, tinted pink. Plant floriferous.

Terre Lorraine. Plant exceptionally good for inside; very floriferous; enormous trusses; flowers semi-double; white, tinted rose carmine.

Theodore Botrel. Grand trusses, spherical in shape; flowers semi-double; beautiful coral red.

Bruant's 1908 Novelties

Single Flowering Varieties

Amedee Giat. Plant of good, compact habit; early and continuous bloomer; strong trusses; grand flowers; brilliant solferino violet, two upper petals superbly maculated bright red. One of the best distinct and beautiful in violet colors.

Claire Frenot. Plant robust and of good habit; excellent trusses, held well above the foliage; grand, round flowers; Nymphaea rose, shading Daybreak, veined rose salmon. Can stand very inclement weather, making new growth well into the Autumn.

Gaetane. Large trusses; round flowers; a novel and pretty shade of nankeen yellow, shading to Daybreak pink. A beautiful variety for any collection.

Jeanne Gazin. Plant robust and massive; beautiful appearance; enormous trusses supported on long stems, lasting exceptionally long; clear beautiful rose; flowers completely detached from the foliage.

Nisus. Trusses and flowers of grand quality; plant robust; rose mauve, distinctly spotted with red. One of the prettiest in this class.

Jean Tarbel. Habit of growth dwarf, but robust; blooms abundant, being held well above the foliage; fine trusses; grand flowers, the petals elegantly underlaid; brilliant clear red. Very beautiful for bedding; elegant when planted in open air.

Rose Unique. A novel variety; unique rose color; when in masses, the effect is incomparable. Intense carmine rose, with a distinct and brilliant shading; trusses are enormous, supported on strong, rigid stems; plants are robust, blooming until late in the Autumn.

Scaramouche. Plant of perfect type, for specimen or pot plant; robust, compact and floriferous; foliage medium, zoned; grand trusses, flowering abundantly the entire season; clear coppery salmon—a pretty color for decorating the garden in Summer.

Simonne Parmentier. Foliage and growth compact, and of finest quality, blooming abundantly; enormous flowers and trusses; color peculiar shade of nankeen yellow, white eye.

Double Flowering Varieties

Atlantis. Plant robust; stems rigid; trusses gigantic; flowers grand, produced freely; brilliant madder red. Useful for centers of vases, baskets, etc., or planting in arid places, as it is robust and its large trusses and brilliant coloring make it very effective.

Belleneontre. Habit of growth robust, blooming early and continuously; enormous trusses and flowers; clear vermilion orange, the petals maculated white; a very pretty color.

Virginia. Plant of beautiful growth; floriferous; large trusses; semi-double, wide open flowers; color Daybreak pink, painted rose, large white center, changing according to the condition of flowers.

Curiosa. Plant short; trusses of medium size; beautiful rose mauve, spotted carmine dots, center white.

Henry Bataille. Plant of superb type for specimens; robust; compact; numerous branches; foliage of leathery texture, deeply cut; dark green zone; trusses supported by long stalks, well above the foliage, easily expanding; red cerise, with brilliant scarlet shading, showing its superior qualities when planted in the open air.

Convoitise. Plant short; foliage small; trusses large; long flowerstalks; flowers large and open; clear solferino violet, upper petals maculated red. A most fascinating plant.

Eight Varieties, Heavy Wooded, Semi-Double

Docteur Danjou. A remarkable variety of magnificent color; intense violet, upper petals blotched white; very grand flowers; semi-double; of a good continued open habit.

Duchesse de Chailles. Enormous trusses, held well above the foliage; grand, semi-double flowers; color pale rose, glazed mauve, striped white in a delicate style. Prettiest now in culture, both in pots or beds.

Eliacin. Has a good habit of growth; dwarf and compact; medium-sized foliage; large trusses; semi-double flowers; bright mauve rose, shading lighter to white center. Has a strong constitution, being able to stand all kinds of weather.

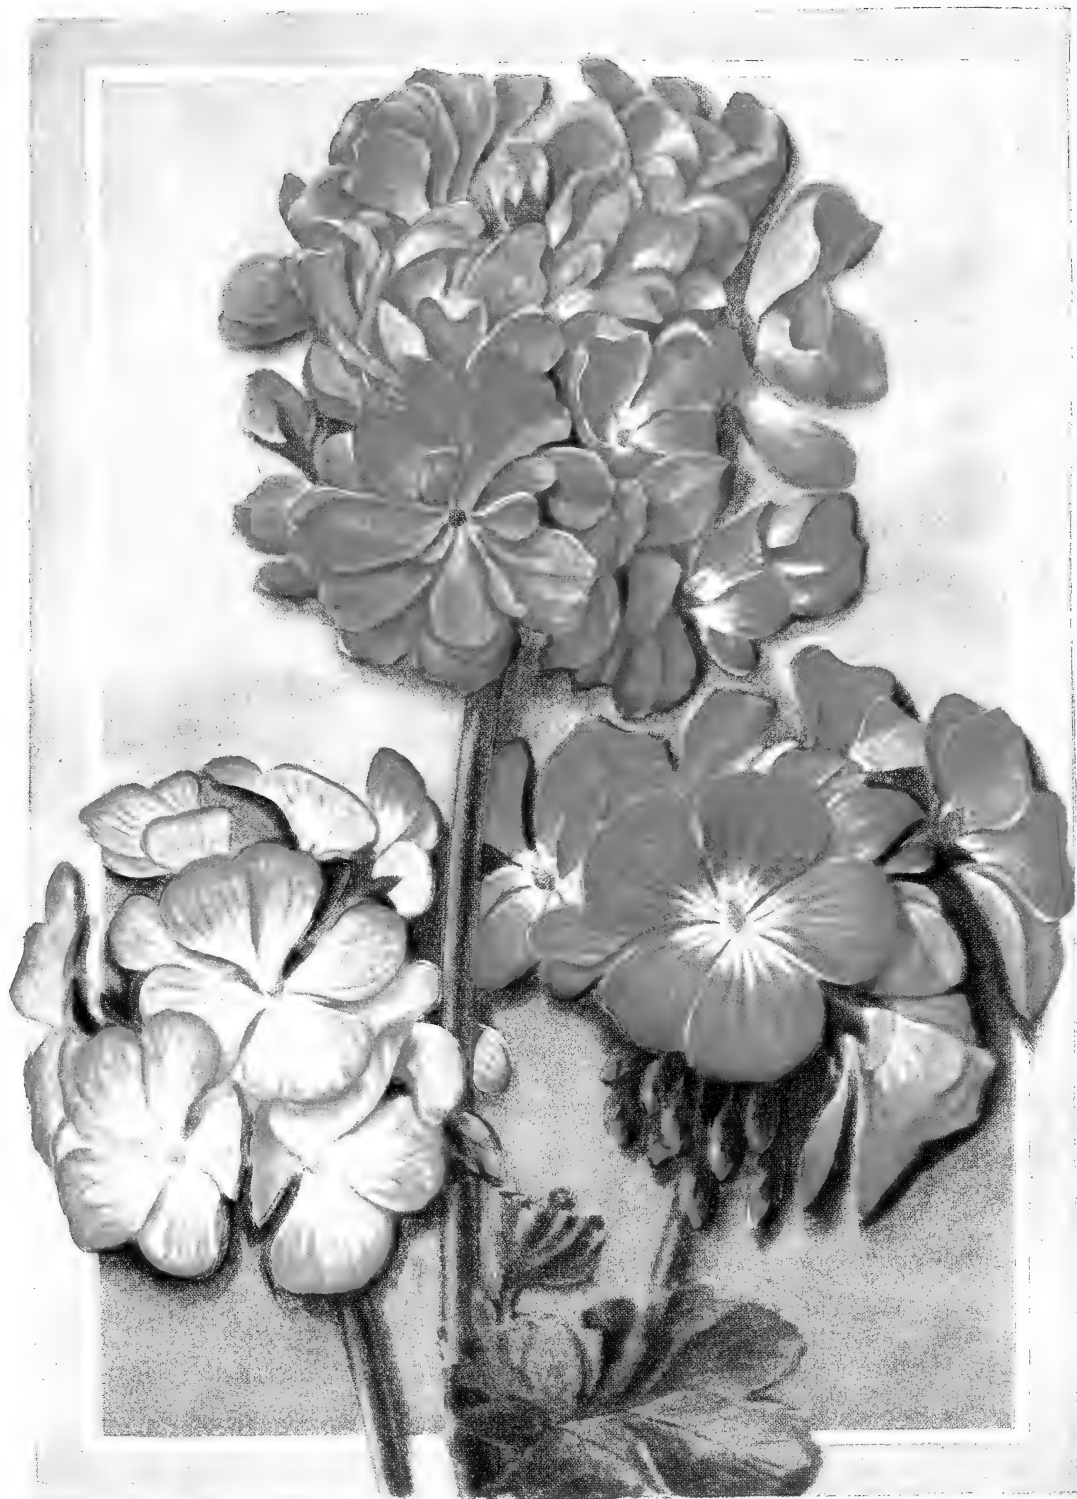

Ernest Vernet. Short stocky growth, the foliage resembling the Pelargonium; enormous flowers and trusses; clear madder red, spotted lilac, veined scarlet. Beautiful.

Jean Dornis. Plant robust but compact; good large trusses, held well above the foliage; grand semi-double flowers; salmon and dawn, softening toward the outer edges to a lighter clear shade. Good for pots; habit similar to Beaute Poitevine.

Fiat. Plant of good habit; compact foliage; medium flowers of good substance; orange salmon, copper tint. Prettiest colored novelty in the salmon type; useful for a pot plant.

Luigi Grandi. Good habit; underlaid foliage; grand trusses, held well above the foliage; blooming abundantly; violet carmine shaded red on upper petals. One of the prettiest colors in our heavy wooded type.

Pres. Neumann. Growth short and branching; continues in bloom until frost; grand, thick foliage; semi-double flowers; clear orange scarlet of remarkable intensity. It will become a great favorite in the future as a bedder.

Bruant's 1908 Varieties—Continued

Four Heavy Wooded, Single Varieties

Fix. Enormous round trusses, well above the foliage; large flowers; bright coquelicot scarlet, white eye. Plants produce a grand effect by their brilliant coloring when massed.

Giselle. Perfect habit of growth; foliage comparatively small; flowers of middle size, borne on long stems, forming large bouquets of pure rose pink. Very pretty as a pot plant.

Rosamine. Enormous trusses of grand flowers; beautiful rose with violet reflex; the petals are superbly maculated white. A beautiful variety.

Suzanne Leepre. Robust, compact grower; floriferous; trusses of grand dimensions; very large flowers; a beautiful shade of aurora salmon, softening toward a lighter distinct eye.

Single Cyclops

Bertrade. Flowers and trusses of grand quality; solferino rose, large white center, very distinct markings; habit of growth excellent.

Charles Derennes. An early flowering variety; grand trusses and flowers; a pleasing color of red shading through violet to a large white center.

Melodia. Plants of good habit; floriferous; large trusses; round flowers; brilliant rose magenta, large white center; prettiest shaded novelty in this class. A beautiful and distinct variety.

Semi-Double Cyclops

Louis Maindron. Splendid habit of growth; flowers very large and open; semi-double; brilliant madder red, large white center; most beautiful effect of the two colors.

Pablo. Short grower; early and floriferous; medium-sized trusses; grand flowers, opening for cutting; red, shaded with violet, large white center.

Dwarf Geraniums With Semi-Double Flowers

Clarus. Has a good habit of growth, and belongs to the same type as Philemon, having the same small foliage and blooming abundantly; beautiful semi-double flowers. It is a silver rose of a most tempting fresh color, and should make a splendid variety for a border.

Electre. Good habit; plant dwarf, always covered with flowers; semi-double; clear wallflower violet; very brilliant. A beautiful shade when massed in bedding.

Lucis. Semi-dwarf; compact grower and abundant bloomer; fimbriated flowers, literally covering the plant; flowers semi-double, slightly curled; clear saturnine red. An effective variety.

Rozain-Boucharlat's 1908 Novelties

Double Varieties

A. Ballif. Cochineal red center, veined rose salmon, shading lighter to almost white edges.

A. E. Guillermoz. Semi-double flowers of large, full petals; white tinted, shaded and bordered lilac; strong grower.

A. Reveiller. Large flowers; full petals; semi-double; carmine lake, tinged red, light center.

Joseph Vianney. Semi-double; large round petals; salmon rose, shaded peach.

Maire-Sebille. Very large flowers; velvety crimson carmine, center bright nasturtium.

Major Rinson. Semi-double; beautiful form; a clear, fresh shade of cyclamen rose, beautifully shaded.

Oudjda. Dwarf grower; free flowering; true purple, spotted bishop violet, opening to a white center.

Belfort. Flowers semi-double, of grand size; cochineal carmine, shaded crimson, center veined white.

Rabat. Semi-double flowers, petals finely formed; purple carmine, shading to clear plum center, white eye.

Single Varieties

A. J. Pirie. Carmine purple, shading through fuchsia red to grand white center; large, round flowers.

Ben Sedira. Large, round flowers; red purple, center clear plum, white eye.

De Brezenaud. Bright vermilion; plant vigorous; free flowering type of Paul Crampel; flowers extra large.

Diamant. Truss large; flowers round, of perfect form; white, bordered lilac.

General Gallieni. Excellent flowers; round petals; crimson velvet, shading to bright purple, white eye, bordered red.

Mirlior. Dwarf; vigorous; easy of cultivation; free blooming, covered with full, round flowers all season. Superior variety for bordering beds of larger Geraniums, or for massing alone.

Mme. Leonce Duval. Beautiful flowers of delicate rose shade, carmine halo, carnation white eye.

Mme. Reynaud. A beautiful shade of rose; large truss; produces grand flowers of perfect form.

Prince des Asturies. This is a strong grower and very floriferous; large truss; full round flowers; white center surrounded by salmon orange, shading to white borders; the upper petals are superbly maculated brighter red orange.

Secrétaire Barat. Beautiful flowers of fine form; carmine lake, shaded salmon.

Suzanne Rozain. Large, round flowers of a beautiful form; clear mauve rose, delicately tinted to white center.

Peter Henderson

(Brt. 1902) A magnificent representative of the Bruant race; grand in health, habit and size of bloom; large flowers and trusses of extraordinary splendor produced in great profusion. *See page 27.*

Mme. Recamier

In our opinion, this is the finest double white we have among the standard sorts. *See page 24*

MRS. LAWRENCE
See page 27

JEAN OBERLE
See page 24

ALLIANCE
See page 30

Roi Edouard

(Lem. 1906) One of the best pinks in this class; splendid habit and easy grower. See page 27.

Bruant's 1907 Varieties

Seven Single Varieties

- Aurora Leigh.** Center and edges white; a wide and well developed salmon halo-like sunrise around the white center.
- Florida.** Fine, pure, light mauve rose, profusely spotted with bright carmine; two fine white spots adorn the upper petals.
- Georges Morand.** Fine, intense mauve rose, upper petals spotted cardinal red.
- Josanne.** Bright rose carmine shade, very distinctly veined, marble with rose white.
- Marthe Dupuy.** Flowers of a pretty bright rose mauve, spotted and dotted with carmine violet, the upper petals maculated with white at the base.
- Mirador.** Vermilion red, sparkling with flashes of violet.
- Refulgens.** Beautiful variety; velvet violet brown, the base of the petals flashing fire.

Five Double Flowering Varieties

- Arnage.** Large flowers of a particular shade of bright rose orange, center flashed with white.
- Grazia Deledda.** Center a delicious blush color, with wide white border.
- Henri Bonnel.** A superb deep violet ruby, having a rich velvety appearance of some wallflowers; center flashed white and blush.
- Madeleine Lepine.** Salmon pink. The plant is always covered with flowers.
- Printanier.** Color of apple blossom but more distinctly veined; bordered mellow to rosy white tint.

One Semi-Double Variety

- Gazana.** Pure bright rose, brilliant, center white.

Two Single Cyclops Varieties

- Mary Floran.** Yellowish halo, large white center.
- Stephan Fournol.** Middle clear violet, wide red border, center white, flashed with bluish white.

Four Semi-Double Cyclops Varieties

- Camille Marbo.** Clear crimson red, center white.
- Jean Tharaud.** Carmine purple, upper petals lighter shade, large white center.
- Louis Mazieux.** Bright vermilion red, very distinct white center.
- Paul Girbal.** Brilliant rose cerise, with flashes of violet, large white center.

Three Heavy Wooded Single Varieties

- Eveline Le Maire.** Delicate rose, veined with deeper rose, large white spots.
- Lysias.** A superb white variety in our heavy wooded kind.
- Mme. Francois Carnot.** Bright rose, center flashed white.

Five Heavy Wooded Semi-Double Varieties

- Flavia.** Pure white. An excellent addition to the class of whites.
- Jacques Daurelle.** Bright cochineal red.
- Judith Cladel.** Beautiful shade of reddish old rose, shaded slightly with pink.
- M. Emile Guerin.** Beautiful rose violet wallflower tint, spotted with white.
- Val. Fleuri.** Flowers of a beautiful shade of Turkey red.

Lemoine's 1907 Varieties

Single Varieties

- Auguste Barbier.** Bright scarlet.
- Colonel Poirine.** Deep russet orange, salmon shading.
- Dr. Zamenhof.** Brilliant garnet, maculated white through transparent purple to white center.
- Emile Gobhart.** Vermilion scarlet color.
- Emmanuel Arene.** Deep rich, dark velvety crimson, maculated orange red.
- Francis de Croisset.** Orange salmon, veined white.

- Gabriel Faure.** Shell white, overlaid primrose pink.
- Vicomte de Vogue.** Rose white, shading to brilliant salmon, salmon center.

Double Varieties

- Jamaïque.** Cherry red.
- Jules Cesar.** Beautiful orange flowers.
- Le Lutin.** Light carmine, white at the base of petals.
- Moulin Rouge.** Dark rich crimson scarlet.

Rozain-Boucharlat's 1907 Varieties

Single Varieties

Amiral Touchard. Bright rose, white center, lower petals spotted with carmine dots.

Abeline Fabre. Peculiarly beautiful shade of shrimp pink at the edge of each petal, shading through clear salmon to white eye.

Carlo Sala. Brilliant and striking shade of rosy scarlet.

Charles Gariat. Beautiful shade of carmine, shaded cochineal.

Louis Dutrie. Deep crimson purple, upper petals shaded fiery red.

Madame Poisson. Rose salmon, white eye.

Marie de Beccelievre. Rich lilac violet, gradually shading to white center.

M. Bourgoin. Crimson red gradually shading to white eye, blotted white on upper petals.

Paul Dumont. Light reddish purple, upper petals shaded fiery red.

Ribot. Rich shade of crimson scarlet overlaid with amaranth purple.

Verdi. Crimson carmine at the edge, gradually shading through white overlaid with slight rose to an almost white center.

Romilda Vicini. White ground, overlaid with slight rose salmon, having reticulated effect, upper petals feathered crimson.

Vera Oulianesky. Pearl white, delicately tinged with the faintest purple.

Double Varieties

Albin Meunier. Rich clear vermilion scarlet.

Banquise. Pure white; splendid truss of large flowers.

Constellation. Rose white, spotted carmine.

Francillon. Crimson red, shading lighter to a violet tinge, white eye.

Henry Dreer. Clear vermilion scarlet.

Le Suffren. Color an exquisite shade of carmine, slight scarlet shading.

Matteo Vercellino. Clear rose, shading lighter to an orange center.

Michel Belin. Chamois rose, shading through rich carmine to white center.

President Fromont. Crimson.

Newer Varieties of Special Merit

Under the heading of Newer Varieties of Special Merit we have for several years been listing such varieties as we have grown enough to feel satisfied that they possessed such Special Merit as to justify giving them a thorough trial, and many of them have been placed in the standard list, superseding some of the old favorites or filling in places for which they are especially adapted. We are confident that the list we offer this season will pass the most critical judgment, and eventually find a place among the universal favorites.

Single Varieties

Jean Rostand. (Brt. 1908.) Grand trusses; pretty flowers, of brilliant vermilion red, large white center, veined bluish; habit of growth semi-dwarf and compact.

Jean Lamarque. (Brt. 1908.) Compact habit of growth, blooming abundantly; grand trusses; large flowers, held well above the foliage; red cerise, shading through violet to white center, orange blotch on upper petals. Should be appreciated for its blooming qualities, continuing until interrupted by frost.

P. Deschanel. (Roz. 1906.) Bright anilin red; white center.

Phoebe. (Brt. 1906.) Deep carmine; enormous flowers and trusses; strong, robust grower; dark zoned foliage.

Brasero. (Brt. 1907.) Plant with very short foliage, covering itself with semi-double flowers, easily expanding; very bright cochineal red. A good addition to the class of dwarfs, which is rather wanting in good red varieties.

Edmond Blanc. (Roz. 1907.) Semi-double; deep carmine, violet tinge, white eye.

Henriette Cordelet. (Brt. 1907.) Plant half dwarf and of very compact habit; very large, semi-double flowers, recalling the shape of our heavy wooded varieties; color bright rose, spotted with white. Plants abundantly floriferous.

Henriot. (Brt. 1907.) Strong trusses with long stems; large and superb semi-double flowers, elegant, easily expanding; new and beautiful color—rose Neyron.

Jamaïque. (Lem. 1907.) Grand, large trusses of enormous flowers of rich cherry red.

Lusca. (Brt. 1908.) Compact habit, blooming abundantly; large flowers and trusses; bright orange red, center white with a shading of lilac on the upper petals. Contracting of the white center makes an effective and striking appearance.

Louis Madelin. (Lem. 1908.) Grand trusses; large semi-double flowers; vermilion scarlet, shaded to white center.

Double Varieties

Abbie Schaefer. (Hill 1908.) A semi-double, crimson scarlet, with elegant florets; very perfect form; truss fine, on good stems. A fine grower.

Aurora. (Roz. 1908.) The trusses are large and bold; a bright, pleasing shade of aurora copper, shaded lighter.

Claire Albane

(Brt. 1906) Large flowers and trusses; pure white; strong grower. An exquisite variety. *See page 27.*

Sycamore

Strong, vigorous grower of good habit, and profuse bloomer. *See page 28.*

Commandant Ott

(Roz. 1906) An extremely handsome variety. Habit of growth excellent. *See page 27.*

Feuer

Brilliant crimson red. A mass of color the entire season. *See page 27.*

Newer Varieties of Special Merit—Continued

Double Varieties—Continued

Mauna Loa. (Lem. 1907.) Large semi-double flowers; bright fiery red.

Mrs. Annie Vincent. (Brt. 1908.) Plant of robust, short growth and floriferous; foliage slightly crimped; large, round flowers, supported well above the foliage. Flowers are grand, semi-double. Exceptional resistance to inclement conditions. Color pure carmine, somewhat maculated white, with a freshness and brightness incomparable. The quality of the growth corresponds with the flowers.

Michele Savvy. (Brt. 1907.) Vegetation low; plant floriferous; large, semi-double flowers; beautiful fresh salmon pink, softening down gradually in lighter tones to white on the edges; splendid in freshness.

Odeon. (Lem. 1907.) Semi-double; Orient red, upper petals blotched white, center white.

Regalis. (Brt. 1907.) Very large, semi-double flowers and trusses; carmine; new color in heavy wooded types.

Rene Bazin. (Roz. 1906.) One of the darkest Geraniums we have; a velvety shade of dark reddish purple; foliage distinctly zoned; habit dwarf.

Reve d'Ossian. (Brt. 1906.) Exquisite shade of nymphæa white, with a tender shading of rose; grand semi-double flowers; gigantic trusses; habit and growth all that can be desired.

Suzanne Despres. Large, semi-double flowers; white, bordered tender rose.

Standard Varieties

Without the slightest fear of successful contradiction, we claim that our collection of Standard Varieties is second to none in the country. It is the result of the most careful selection from hundreds of varieties and contains only those sorts which years of experience have taught us are the very best in their several different classes, and are such as can be depended on to produce the most satisfactory results, under anything like fair treatment.

We are preparing to propagate these varieties extensively, having added thousands of stock plants to our already large stock. We never had them in better shape for propagation. If you can use them in large quantities write us and we may be able to give you special price. Surplus stock will be advertised in the trade papers from time to time at prices which will hold good only while the surplus lasts.

Double Varieties

Admiral Jones. (Lem. 1906.) Splendid, deep strawberry red; superior flowers and trusses; excellent grower and fine habit. *See plate, page 7.*

Alphonse Ricard. (Brt. 1894.) Large, semi-double flowers, often measuring two inches in diameter, borne in enormous trusses, on long flower stems. Continues in bloom the entire season.

Anais Segalas. (Brt. 1906.) Strong, robust grower, but a splendid habit, with dark rich, deeply zoned foliage, of good substance; the flowers are large and of almost perfect form; trusses are immense, produced with wonderful freedom; color a bright salmon carmine, brightening toward the center. A grand acquisition to any collection. *See colored plate, page 25.*

Beaute Poitevine. (Brt. 1887.) Conceded to be one of the best semi-double bedders among the light salmon shades. The color is a beautiful shade of shrimp pink, delicately shading to white.

Berthe de Presilly. (Brt. 1887.) Large, semi-double flowers, profusely produced in splendid trusses the entire season. It is, in fact, one of the best bedding light pinks we have, and is a fit companion to the old favorite and standby, S. A. Nutt. *See plate, page 9.*

Centaure. (Lem. 1887.) A most beautiful shade of Neyron rose; a fine bedder and splendid pot plant.

Double Dryden. A very pleasing and magnificent combination of colors; center of flowers coral white, gradually shading through the most delicate lilac magenta toward the outer edge of the petals, which are of the most exquisite, glowing, soft crimson.

Comtesse de Harcourt. (Brt.) Pure snow white; florets beautifully and abundantly produced in large trusses.

Col. Thomas. (Brt. 1906.) A most magnificent addition to the list of Mr. Bruant's introductions, and one that is destined soon to rank among the highest grade of standard Geraniums. Distinct in color and exceptionally attractive, the color being a pleasing shade of deep cardinal red, apparently colored with purplish sheen, deepening toward the center of the large, well-formed, handsome, semi-double flowers; the trusses are medium size, but borne in the greatest profusion; habit dwarf, vigorous and branching. An easy variety to grow. *See colored plate, page 5.*

Cousin Janie. In this we have an exceptionally fine addition to the very dwarf and free flowering class. Excellent both as pot plant and a low bedder. The habit is most desirable, dwarf and branching; flowers abundantly produced in fine trusses; beautiful clear rich pink, slightly spotted light red, gradually shading to a distinct white center.

Dagata. (Brt. 1905.) In Dagata we have what is conceded to be the premier of the 1905 novelties, the grandest of all Mr. Bruant's many magnificent introductions, which are acknowledged to be the standard of Geraniums the world over, and represent the highest development of Geraniums at present. The plants are dwarf, robust but compact growers; the individual flowers are magnificent semi-double; trusses are gigantic and produced in marvelous profusion. The color is a remarkably beautiful shade of mauve rose, with large blotches of white at the base of upper petals; very striking and effective; a constant bloomer.

Standard Double Varieties—Continued

Dr. Philippe Tissie. (Brt. 1906.) Robust grower; abundant flowers; large trusses borne on long stems; light crimson, shaded through magenta to grand white center. Beautiful and striking.

E. H. Trego. A most beautiful shade of dazzling scarlet, with an exquisitely soft, velvety finish on a saffron ground.

Fleuve Blanc. (Brt. 1905.) Color pure white; very large, handsome, rich green foliage, zoned with dark green; growth dwarf, vigorous and compact.

General Grant. (Brt.) True stock; bright vermilion scarlet; full round florets, borne in large trusses on long stems.

General Saussier. (Lem. 1906.) Exquisite shade of carmine, shading to white center; large trusses.

Jean Oberle. (Brt. 1906.) One of the most beautiful among the color known as peach pink; an exquisite shade of hydrangea-pink shading tenderly to almost pure white at the outer edges of each petal; the florets are especially well formed, just semi-double enough to be pleasing; the trusses are actually immense, often having over a hundred florets to the truss. The habit is exceptionally strong and vigorous; very free bloomer; foliage distinct, and one of the type that stands the sun perfectly. *See colored plate, page 17.*

Jean Viaud. (Brt. 1891.) An attractive bright clear shade of mauve rose, fading to a distinct white throat. The flowers are large and trusses enormous, sometimes measuring six inches in diameter.

Jean Violette. (Brt. 1906.) Semi-dwarf; robust grower; beautiful rich violet crimson; large semi-double flowers. An excellent variety.

John Doyle. Rich, deep scarlet; exceptionally bright and effective; splendid habit. A universal favorite.

Jules Vasseur. (Brt. 1906.) Semi-double Cyclops, of an exceptional and strikingly handsome color—bright cardinal red, with a distinct white eye, a slight violet shading on upper petals; a strong, robust grower; the foliage is rich green, slightly feathered; clean and healthy. Magnificent as a pot plant. *See colored plate, page 25.*

La Favorite. (Lem. 1888.) One of the finest double whites in this class; pure in color. Unsurpassed as a white bedder.

La Pilote. Brightest vermilion scarlet; an excellent grower and profuse bloomer; foliage deeply zoned. A magnificent and striking bedding variety, and splendid for pot culture.

Le Cid. (Lem. 1887.) A charming shade of dark cardinal red; beautifully shaped florets; fine trusses; habit dwarf clean and healthy.

Leon Baudrier. (Brt. 1906.) Semi-double Cyclops. Immense semi-double flowers; large, full trusses, freely produced on long, rigid stems; foliage thick and of leathery texture; habit of growth robust and branching; color a beautiful shade of carmine lake, shading soft cerise to a large white center. A most excellent fancy pot plant. *See colored plate, page 5.*

Leopold Bouille. (Brt. 1906.) Semi-double Cyclops; bright solferino red, upper petals richly shaded bright carmine purple to a distinct white center; profuse bloomer; flowers large, of perfect form and borne in large trusses; habit is ideal. Like all the superb Cyclops, this will within a short time become a universal and indispensable favorite. Exceptionally good for a pot plant. *See colored plate, page 13.*

Madame Laporte-Bisquit. (Brt. 1906.) A very strong, robust, semi-dwarf and compact grower. The foliage is large, handsome and deeply zoned; flowers large; trusses immense and freely produced; color an exquisite shade of rich light salmon rose, shading lighter to an almost white margin at the edge of petals. A variety which we are confident will win a place in popular favor. *See plate, page 10.*

Madonna. (Roz. 1900.) Pure snow white; semi-double; of good form and finish; compact grower.

M. Anatole Roseleur. (Brt. 1900.) A most beautiful shade of deep rose pink, rivaling in beauty and freshness the color of the Paul Neyron rose, a color that has been more admired than that of any Geranium we have on our place, and which we are confident will soon become the standard pink, superseding all others. The flowers are large, semi-double, showing a distinct white center; enormous trusses, borne on long stems well above the clean, extremely handsome foliage. In habit of growth it is most pleasing; dwarf, short jointed and vigorous, producing flowers at almost every joint. We unhesitatingly recommend it, as there is no question but that it will give satisfaction in every case, either as a pot plant or bedder. *See colored plate, front cover.*

Marquise de Castellane. (Brt.) Beautiful soft crimson, varying to tomato red. The flowers are very large, perfect in form and borne in large trusses, profusely produced on long, rigid stems. A variety which we can recommend, knowing that it is among the healthiest growers that we have.

Marquise de Montmort. (Brt.) Deep crimson carmine; a very novel and beautiful shade.

Miss F. Perkins. An exquisite shade of deep rose pink, with a distinct white throat; large, handsome flowers.

Miss Kendall. Dark carmine red, shading to Geranium lake toward the center of the bold, full flowers; of fine form.

Mme. Barney. (Brt.) A splendid deep pure pink, of a lively shade and grand habit of growth; dwarf and branching.

Mme. Buchner. (Lem. 1898.) Snow white; strong, vigorous grower; flowers abundantly produced in large trusses.

Mme. Canovas. (Lem. 1898.) Very dark velvety scarlet with maroon shading; immense florets, produced in large trusses on long stems held well above the foliage. A rival to S. A. Nutt in color, but a stronger grower.

Mme. Charrotte. Clear, distinct rosy salmon, shading lighter toward the outer edges—a combination that is pleasing and attractive.

Mme. F. Sarloveze. (Brt.) An exquisite and pleasing shade of bright rose, shading to white center. The flowers are just semi-double enough to give them a fine finish. Flowers and trusses are among the largest, abundantly produced; habit and growth dwarf and branching.

Mme. Jaulin. (Brt.) Color delicate peach pink, shading to a shade of Daybreak pink in the center.

Mme. Landry. A distinct salmon pink, with a slight shading of scarlet; habit semi-dwarf, vigorous; broad, heavy, deep zoned foliage. It has all the best points of a Brunt Geranium.

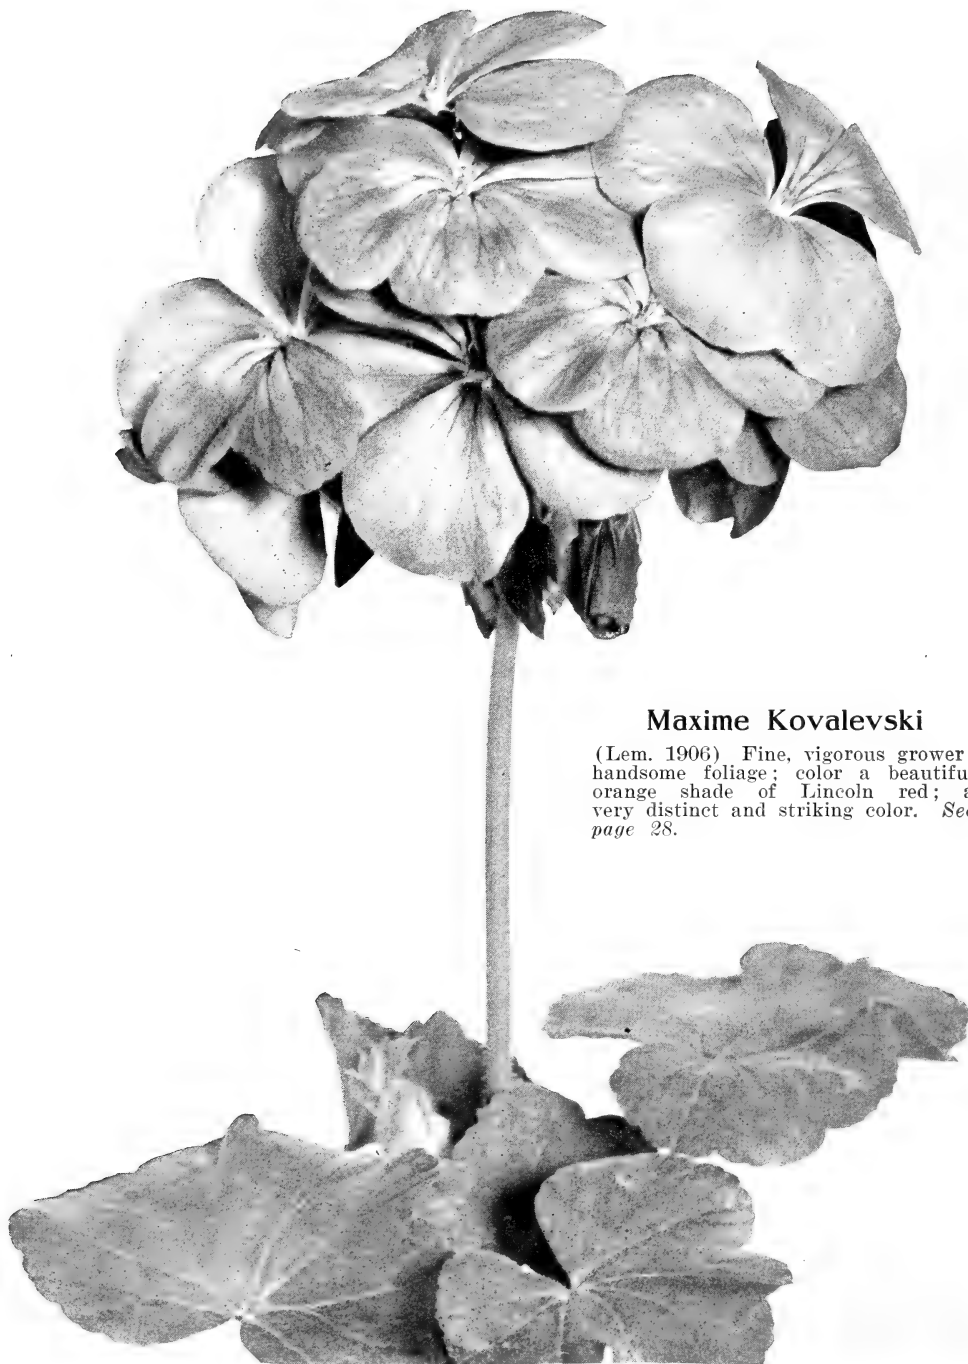

Mme. Recamier. Double snow white; strong and vigorous grower. In our opinion this is the finest double white that we have among the standard sorts. *See plate, page 16.*

ANAIS SEGALAS
See page 23

JULES VASSEUR
See page 24

ORNELLA
See page 27

Maxime Kovalevski

(Lem. 1906) Fine, vigorous grower; handsome foliage; color a beautiful orange shade of Lincoln red; a very distinct and striking color. See page 28.

Standard Double Varieties—Continued

Mrs. Lawrence. This is, without exception, the finest Geranium of this color that we have ever seen; clear, healthy foliage; splendid dwarf, compact habit of growth; wonderfully free in flowering; indispensable as a pot plant, being strongly recommended for Winter blooming. Unsurpassed as a bedder. The color is an artistic shade of bright satiny salmon pink, slightly tinged white. We are satisfied its distinct and graceful form will place it in the front rank of its race. *See colored plate, page 17.*

Monsieur Emile David. (Brt. 1906.) Semi-double; large flowers; violet rose, upper petals feathered white at the base; flowers abundantly produced; luxuriant, slightly zoned foliage.

Ornella. (Brt. 1906.) A magnificent new variety, which we are confident will meet every requirement of a semi-double scarlet Geranium, either as a pot plant or a bedder. The color is so intense as to dazzle the eye; the foliage is robust. This is really a gem. *See colored plate, page 25.*

S. A. Nutt. This is a standard dark red Geranium, more generally used than any other both as a pot plant and for bedding. Brilliant deep scarlet, with maroon shading.

Peter Henderson. (Brt. 1902.) A magnificent representative of the Bruant race; grand in health, habit and size of bloom; large flowers and trusses of extraordinary splendor produced in great profusion. The color is an excellent shade of poppy red, a color that carries well, and when used for bedding shows as far as the eye can see. As a pot plant, its habit is perfect and will meet all requirements, as it is a strong, robust, but dwarf and compact grower, with a clean, healthy constitution. *See plate, page 15.*

President Baillet. (Brt. 1906.) In President Baillet we have a prominent candidate for first place among the magnificent Bruant race, being a strong, robust, short-jointed grower; large, dark zoned foliage; color bright scarlet, with a soft velvety finish, making a truly handsome Geranium. Large, bold flowers and trusses, held well above the foliage.

Roi Edouard. (Lem. 1906.) Immense semi-double flowers; enormous trusses; beautiful shade of rich carmine lake, gradually shading to a distinct white center. One of the best pinks in this class; splendid habit and easy grower. *See plate, page 18.*

Single Varieties

Abel Lefranc. (Lem. 1905.) Splendid large flowers of perfect form and size; lilac white, lower petals literally covered with rose lilac dots. One of the most attractive of the dotted sorts.

Admiration. Enormous trusses of beautifully formed flowers; color an exquisite shade of bright rosy shrimp pink, shading to white center; strong grower.

Alice Vincennes. (Hill 1901.) A very distinct and beautiful variety; white ground, with gradual and charming gradation of color from the center through a beautiful shade of violet crimson to the outer edge of intense scarlet.

Ardens. (Brt. 1906.) Excellent, large flowers; enormous trusses; color vermilion scarlet, distinct white center; beautiful and effective; fine habit of growth.

Bariolage. (Brt. 1906.) Dwarf, vigorous and free flowering; clear rose, lower petals blotched crimson, upper petals blotched white.

Claire Albane. (Brt. 1906.) Large flowers and trusses; pure white; strong grower. Stands the sun well; an exquisite variety. *See plate, page 21.*

Commandant Felker. (Brt. 1901.) Bright, deep cardinal red, with small white eye; a splendid dwarf-growing, branching and extremely free flowering variety; a leader for pot culture or bedding.

Commandant Ott. (Roz. 1906.) An extremely handsome variety; a beautiful shade of anilin red, with a large white center; flowers are perfect; trusses large; habit of growth excellent. *See plate, page 22.*

Dryden. Bright cochineal red, shading to pure white center; very floriferous; exceptionally clean, healthy and vigorous; foliage slightly zoned.

Eugene Sue. (Lem. 1905.) A brilliant shade of russet orange; very effective when massed in beds; foliage large and of fine texture; habit splendid; luxuriant, branching, semi-dwarf and robust.

Feuer. Brilliant crimson red; very free-flowering; a mass of color the entire season; dwarf, compact grower and of fine habit. Came to us very highly recommended and, as far as our opinion goes, will bear recommendation. *See plate, page 22.*

Frau Bertha Schaffer. A strong, robust grower and free flowering; large trusses; splendid habit of growth; color a peculiar shade of bright apricot salmon, feathered darker at the base of petals. *See plate, page 7.*

Gabriel Montoya. (Lem. 1906.) A most distinct and striking shade of reddish purple; large, round, full flowers; immense trusses; free flowering; strong, robust grower and grand habit.

Granville. Color the most beautiful shade of dark rose pink, white blotches on base of upper petals; habit all that can be desired, being strong, compact and beautiful. Stands the sun well.

Jacquerie. (Lem. 1896.) A most beautiful shade of deep carmine red; immense trusses on exceptionally long stems; very vigorous grower and unsurpassed as a bedder.

Juste Oliver. (Lem. 1905.) A peculiar and pleasing shade of carmine purple, upper petals shaded fiery red. A unique and beautiful color for bedding and massing.

Konigin Olga Wurtemberg. Deep rose, pure white at the base of upper petals; dwarf, compact grower; extremely free flowering, every joint producing a bloom. An old favorite of the Germans, that promises to do remarkably well here; splendid as a pot plant. *See plate, page 7.*

L'Aube. (Brt. 1895.) Pure snow white, retaining its purity the entire season. One of the best single whites.

Lord Curzon. An exquisite shade of old carmine red, shaded at the base of upper petals fiery red; a fine distinct variety in a lovely color, producing enormous trusses of individual flowers of the greatest size and substance.

Marguerite de Layre. (Brt. 1889.) A beautiful pure white, blooming incessantly; enormous trusses.

Standard Single Varieties—Continued

Maxime Kovalevski. (Lem. 1906.) Fine, vigorous grower; handsome foliage; color a beautiful orange shade of Lincoln red; a very distinct and striking color; when massed a great acquisition to the bedding class. Well worthy of a thorough trial. *See plate, page 26.*

Mlle. Anastasie Lecadre. (Brt. 1906.) One of the strongest growers we have in this class. Large trusses freely produced; rich crimson carmine, shading through a maculated effect to a pure white center. A handsome and striking variety. *See colored plate, page 13.*

Mme. Mosnay. (Brt. 1906.) Beautiful shade of Geranium lake; upper petals shaded violet to a white center; flowers perfectly formed, freely produced in enormous trusses on long rigid stems; foliage handsome, slightly zoned, of heavy texture; clean, strong, robust, healthy grower. Should make a good bedder.

Mme. de Thebes. (Lem. 1906.) A strikingly handsome variety for pot plants; pure white, each petal delicately edged with rose pink; full, round, magnificent trusses; splendid habit.

Mrs. Brown Potter. Decidedly the most beautiful variety of clear pink that we have; color bright rose Neyron; extremely effective; dwarf habit; wonderfully free flowering.

Mrs. E. G. Hill. (Brt. 1901.) The center of each petal is a soft light salmon, bordered with rosy salmon; semi-dwarf; stands the sun perfectly. A splendid bloomer and unsurpassed as a bedder.

Mrs. E. Rawson. Bright scarlet, with slight crimson shading on upper petals; enormous trusses of immense round flowers; remarkably strong and vigorous; semi-dwarf, deeply zoned foliage of excellent texture; stands the sun perfectly. A splendid bloomer and unsurpassed as a bedder.

Neron. Dwarfy growing, orange scarlet bedder; splendid constitution.

Nuit Poitevine. (Brt. 1904.) A remarkably strong and vigorous variety, which we have no hesitation in recommending to those who wish a handsome dark single Geranium; color beautiful rosy purple, lower petals feathered rich scarlet; splendid habit and growth.

Pamela. (Cannell 1906.) Extremely handsome and distinct variety. Large, pure white center with a shading through a maculated effect to a broad distinct outer margin of crimson lake; flowers large and round; enormous trusses, freely produced. Unusually strong, vigorous grower for English round-flowered sort; greatly admired. *See colored plate, page 13.*

Rival. The result of a cross between the zonal and ivy-leaved type, retaining more of the nature of the zonal and possessing many of the good points of both parents. Splendid as a pot plant and under favorable conditions is an excellent bedder. Color a unique soft shade of salmon red, upper petals beautifully blotched. *See plate, page 31.*

Paul Crampel. (Lem. 1892.) A most brilliant shade of vermilion scarlet, so vivid as to completely dazzle the eye; foliage deep rich green, with a distinct zone; habit all that can be desired, being strong, compact and vigorous, yet sufficiently branching to completely cover the ground when bedded out. This is the freest blooming single Geranium we have, the bed being a mass of intense fiery scarlet during the entire Summer. *See colored plate, page 5.*

Princess Alex. The color is a most beautiful carmine lake; flowers perfect, produced freely in grand trusses; foliage light green. As a pot plant it has no equal in its class.

Richmond Beauty. (Hill 1902.) Brilliant vermilion scarlet, shading through delicate violet rose to a distinct white center; splendidly formed flowers, abundantly produced in fine trusses.

Rosalda. (Brt. 1906.) Grand, well formed flowers of a beautiful shade of rich crimson pink; the upper petals are heavily blotched white, veined carmine; the habit is ideal. True representative of Bruant race; strong, semi-double and robust.

Snowdrop. (Pears.) Pure snow white; enormous trusses; perfectly formed flowers, held well above the beautiful foliage.

Sycamore. A cross between Mrs. E. G. Hill and Paul Bruant. Strong, vigorous grower of good habit, and profuse bloomer. The trusses are borne on long stems; color an attractive and bright clear salmon pink. *See plate, page 22.*

Telegraph. (De Voy 1904.) Strong, robust grower; of exceptional value as a bedder. It has an ironclad constitution and stands all weathers with perfect immunity. Mammoth dark green foliage, with heavy chocolate zone; enormous trusses of beautiful Lincoln red. Has become quite a favorite.

Teodor de Wyzewa. (Lem. 1906.) A bright, cheerful, clear shade of rich lilac rose; large white blotch at the base of upper petals; flowers and trusses all that could be desired, and abundantly produced; splendid habit; strong branching, semi-dwarf grower.

The Sirdar. A most brilliant shade of intense scarlet; produced in enormous trusses of perfect form; circular florets of immense size and of the finest substance, on long stems; growth strong and robust. A remarkably good pot variety.

Tiffin. (Ullrich 1906.) One of the freest blooming single scarlet bedding varieties; rich, glowing scarlet, crimson maroon shading on upper petals.

Victor Grosset. (Brt. 1906.) Bright rich shade of apricot salmon, bordering on vermilion scarlet; valuable acquisition to a color in which good varieties are scarce; stands Summer well, blooming freely; strong, healthy constitution and splendid habit; excellent trusses and flowers.

Cactus Flowering Geraniums

Exquisite. Geranium lake.

Fire Brand. Rich scarlet.

Fire Dragon. Bright Geranium red; exceptionally striking and showy.

J. R. Greenhill. Pleasing shade of soft hydrangea pink.

Mrs. J. Brown. Deep carmine; dwarf grower; free bloomer.

Salmon Queen. Light scarlet.

Rose Queen. Strawberry red.

The Countess. Scarlet.

Diabolo. (Brt. 1908.) Dwarf grower; small foliage; small semi-double flowers, very disorderly arrangement; brilliant fiery scarlet. The plants are very floriferous.

Dazzler. Fine deep crimson.

Standard Pelargoniums

Alice M. Love. A lovely shade of salmon rose; free; perfect habit.

Beauty of Oxton. Rich maroon, darkly blotched, regularly margined white; beautifully fringed.

Charles Outram. White, suffused with deep purple blotch in center of each petal.

Countess of Crewe. Fine bold flowers of an attractive satiny rose shade; petals beautifully crimped and of thick, leathery substance.

Countess of Warwick. Beautiful orange scarlet. A very attractive and effective variety.

Crimson King. Good habit; one of the most popular varieties for market purposes. As its name denotes, intense crimson color.

Decorator. (Hayes.) Red, dark blotch; very large and full. A fine variety.

Dr. Masters. Black blotches, margin rich crimson, lower petals small blotch.

Duke of Cornwall. Gigantic trusses; well formed flowers of great substance; slightly crimped petals, reddish crimson, each petal bordered light salmon; spreading, branching habit. A standard variety.

Edna May. Deep rosy pink, white center and margin. Very attractive.

Enchantress. Beautifully fringed flowers, blush white, clearly feathered maroon in upper petals; free flowering.

Emmanuel Lias. Mottled rose and white; much crimped; very free; vigorous.

Gloriosa. Beautiful pearl-white petals, solid blotch in upper petals. Very effective.

King of Spain. Reddish purple; fine bold flowers of grand form; lighter center; good constitution. Very showy.

Hamlet and Ophelia. Light satiny mauve, of a deeper color in upper petals, and blotched deep crimson maroon; flowers very large and of good shape.

Lady Carrington. A beautiful tint of blush white, slightly crimped margins, and a slight reddish maroon in the upper petals; crimped edges; fine, robust habit.

Lady Helen. Light lavender, dark blotches in upper petals.

Lady Treloar. Blush white, tinted lavender, distinct maroon blotch in upper petals. Very distinct and attractive.

Lord Carrington. A beautiful mauve purple shade, with a large crimson lake blotch in the upper petals; enormous flowers and trusses. Quite a distinct variety; habit first-class.

Lord Mayor Treloar. Bright rosy red, a very effective maroon blotch in upper petals, large white center and lighter margins; free flowering.

Marie Mallet. Silvery white, carmine spot on lower petals, red and maroon on upper; habit very dwarf. Quite distinct.

Mons. E. Herzog. Scarlet, shaded silver, slightly feathered in upper petals.

Princess Beatrice. Blush white, deep crimson blotch occasionally; semi-double.

Purity. A seedling from Venus; quite as early but much stronger in truss and pip, and a better constitution.

Sam Blandford. Glowing orange scarlet, light shaded center; nearly black blotch on top petals.

Tommy Dodd. Lower petals soft blush, upper maroon and crimson, edged blush; large showy truss.

Small-Flowered Pelargoniums

Pansy Type

Delicatum. White, rose blotch.

Mrs. Loyal. The true Pansy Geranium. The coloring and marking of the flowers are most extraordinary; light pink, white, dark purple, black, etc., almost rivaling the Pansy in uniqueness of flower. It is the combination of coloring which obtained for it the popular name of Pansy Geranium.

Mrs. Mendal. White, delicate spots.

Variegated Foliage Varieties

Happy Thought. Center of leaf creamy white, with broad margin of rich green. A distinct and useful variety.

Jubilee. Salmon flowers; rich golden bronze; deep chestnut zone.

Masterpiece. Golden yellow foliage, with broad, very dark zone, variegated rich blotches.

Mountain of Snow. Light green, distinctly variegated white.

Mrs. Parker. Pink flowers; double; margined white leaves.

Mrs. Pollock. Golden yellow edge and green center; effectively variegated orange red; dark chocolate zone; strong grower. One of the best bedding sorts.

Mme. Salleroi. Dwarf, compact habit, being not more than a foot high. Bright green leaves, edged white. More universally used than any other Geranium as a border.

Mme. Languth. Pure white margins, green center, cherry red flowers.

Silver-Leaved S. A. Nutt. Green, edged white; very similar to Mme. Salleroi; much stronger grower; flowers large, produced in fine trusses; very free bloomer; color brilliant crimson scarlet.

Sophie Dumaresque. Very effective; golden tricolor, salmon scarlet flowers; strong constitution.

Ivy Leaved Varieties

Achievement. Semi-double; large flower, freely produced in large trusses; color a distinct and pleasing shade of soft salmon pink. Being a cross with a zonal it has a good habit and constitution.

Alliance. (Lem. 1905.) A French hybrid between a zonal and ivy, which has retained all the good points of both parents, including the beautiful soft finish of the ivy and the hardy constitution of the zonal. It is, therefore, not an ordinary, but an extraordinary variety in all the good points that go to make up an attractive Geranium. Its color is the most exquisite shade of delicate lilac white, upper petals feathered and blotched bright crimson rose; flowers semi-double, abundantly produced in fine, large trusses; foliage beautiful, clean and of a splendid leathery texture; habit excellent, robust, strong; close jointed. See colored plate, page 17.

Ballade. (Lem. 1905.) Large, semi-double flowers and splendid trusses; color tender lilac, upper petals feathered with crimson maroon; a strong, dwarf, steady grower, of splendid habit.

Bettina. (Lem. 1905.) Semi-double, large flowers; beautiful shade of lilac white; flowers and trusses of superior size. A grand variety.

Cæsar Franck. (Lem. 1905.) This is unquestionably destined to become the most popular Ivy Geranium yet introduced. The color is a magnificent shade of soft rich crimson, with an exquisite shade of tender rose at the base of petals. The flowers are about as double as Crimson Rambler rose, which they resemble, only much richer in color and finish, produced on long stems in enormous trusses. The foliage is a clean, waxy, rich green; habit vigorous, quick growing and pleasing, with a strong constitution. For baskets and vases it is striking and all that can be desired—handsome, graceful and attractive.

Corden's Glory. Bright scarlet; bold, full of flowers; free grower and bloomer.

Col. Baden Powell. Flowers of the largest size, abundantly produced in good-sized trusses, borne on long stems; pearl white, shading to soft blush, dark blotched on upper petals.

Corinthienne. (Lem. 1905.) Grand, large flowers and trusses; white, tinted lilac, feathered and blotched; dark purple on upper petals. A dwarf grower.

Duke of Edinburgh. Foliage green, with broad white margins; large, semi-double pink flowers. A free grower.

Dina Scalarandis. Double white, with a slight lilac tinge; flowers abundantly produced.

Incomparable. Trusses very large; florets of good form and full; color an exquisite shade of rosy carmine.

L'Elegante. Leaves margined white; blooms white. A grand acquisition for hanging baskets, pots, etc.

Mme. Thibaut. Bright clear rose; elegant flowers and trusses, abundantly produced; habit strong and vigorous.

Mrs. Banks. The flowers are large, semi-double and borne in medium-sized trusses on long, wiry stems; color a pleasing shade of blush white, upper petals feathered reddish Neyron. In habit of growth it is truly an Ivy, exceptionally strong and vigorous, flowering abundantly through the Winter. The foliage is handsome light green. We have a fine, healthy stock of this superb variety.

Mrs. Hawley. Large, semi-double flowers; strong, robust grower; splendid habit; color a pleasing shade of rose cerise, with a slight magenta shading, dark blotch on upper petals.

Pierre Crozy. Bright scarlet; dwarf, compact habit; good bedding plant where a low bed is desired. A cross between an Ivy and a Zonal.

Rycroft's Surprise. Bold, vigorous, upright habit; large trusses of a lovely shade of soft pink. Free and effective.

Scented Leaved Varieties

These beautiful and useful Geraniums are now more extensively grown for their highly fragrant foliage, and to be used among cut flowers which have no perfume of their own, as well as in making toilet waters, fragrant jars, flavoring jellies, etc. The large-flowering varieties make very effective pot plants when well grown.

Apple. (Pelargonium odorata.) Apple scented.

Balm. (P. vitifolium.) Large flowers; strong grower; very fragrant.

Capitatum. Rose scented.

Clorinda. The result of a cross between the Cape Pelargonium and the Quercifolium. Splendid, strong growing habit; deep green foliage, and an agreeable fragrance. The flowers are larger than those usually found on a scented variety; Neyron red, shaded darker with a maroon blotch, and freely produced.

Dale Park Beauty. Fragrant.

Fair Ellen. Large oak-leaved foliage; fragrant and beautiful.

Lady Mary. Upper petals rosy lake, shaded violet crimson; lower petals blush white, small flowers.

Lady Plymouth. (Graveolens fol. var.) The variegated rose; variegated green and white, with a golden tinged foliage. Unique and attractive as a pot plant.

Lemon. (P. graveolens.) Small, glossy green leaves; delightful lemon scent.

Little Gem. Rose, fragrant dwarf; splendid habit.

Mrs. Kingsbury. Fuchsia red, shading lighter to white eye, upper petals veined maroon; large flowering.

Nutmeg. (P. fragrans.) Small, bright green foliage; nutmeg scented. Introduced in 1774.

Old Unique. Deep lilac.

Pretty Polly. Dwarf, bushy habit; large leaves; almond center; purple orange, upper petals blotched maroon.

Pheasant's Foot. Large foliage.

Quercifolium. Oak-leaved foliage; leaf, black center, finer cut than Quercifolium major.

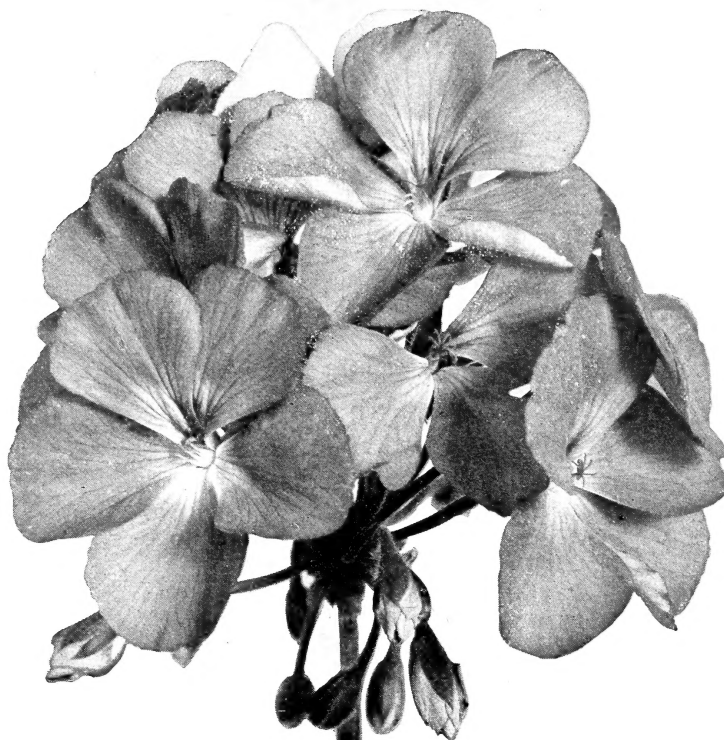

Radula Major. Citron center.

Rose. (P. graveolens.) The standard rose scented. A favorite since it was introduced in 1690.

Scarlet Unique. Flowers dull scarlet, blotched with maroon, good habit.

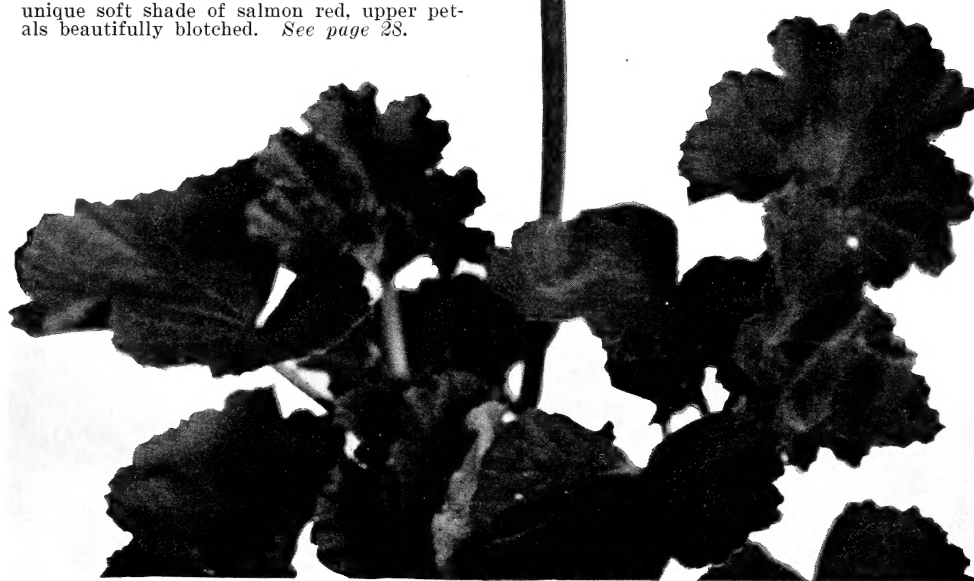

Schotteshampet. Filbert scented.

Tomentosum. Large, flat, woolly foliage, highly scented with peppermint.

Rival

Splendid as a pot plant and under favorable conditions is an excellent bedder. Color a unique soft shade of salmon red, upper petals beautifully blotched. *See page 28.*
